

Job Title: Programmer III

Location: Cockeysville, MD
(Remote)

About the position:

We are looking for a highly experienced and self-motivated Senior Programmer to join our small but growing Company and Team. The ideal candidate will work both independently and collaborate with other team members within the Company and with our clients to enhance our product offerings. Our solutions demand highly skilled and talented programmers with the experience and enthusiasm for designing and building applications that require high availability. We are looking for a programmer with strong analysis, design, coding, debugging, and communication skills.

Responsibilities:

- Design and develop reliable point-of-sale solutions
- Develop robust integrations to third-party payment gateways and providers
- Work with payment processing hardware
- Complete required solution certifications

Applicant should have:

- 5+ years of software development
- Strong analysis, coding, problem solving, debugging, and analytical skills
- Excellent written and cross group collaboration and communication skills
- Computer Science Degree or equivalent experience or training
- Experience developing perfect code

Key Qualifications:

Understanding and familiarity with one or more of the following technologies:

- **.NET Framework**
- **VB, C#, Java, Python, C++**
- **t-sql**
- Networking

Bonus Qualifications:

- Experience in the Payment Card Industry
- Knowledge of PCI Security Standards
