

Job Title: Solutions, Support and Services Programmer Location: Cockeysville, MD (Remote)

ABOUT THE POSITION:

We are seeking a talented and dedicated Solutions, Support and Services Programmer who will work closely with our Support and Services Team to identify, debug, and resolve issues. This individual will also develop imports, exports, develop enhancements, and perform a wide range of tasks to support our suite of solutions. You will play a vital role as the liaison between the Solutions Development team and the Support and Services team.

The ideal candidate is passionate about building, maintaining, and enhancing both on-premises and cloud-based applications. They will bring proven experience in C#, .NET Core, and SQL Server, with a solid understanding of desktop and web development. A strong ability to solve problems, deliver high-quality results, and collaborate effectively is essential.

In this position, you'll work alongside a committed team in a dynamic environment where your contributions will directly impact our clients and the success of our company. If you're eager to grow your career and make a meaningful difference, this is the position for you.

KEY RESPONSIBILITIES:

- Identify, debug, and resolve issues across our applications and client environments.
- Develop and maintain imports, exports, and other integration processes.
- Design, develop, and support high-quality cloud and on-premises solutions.
- Collaborate closely with the Solutions Development and Support and Services teams and other stakeholders to deliver meaningful solutions.
- Help continuously improve our development processes, tools, and methodologies.
- Conduct and participate in code reviews to uphold high standards.

KEY QUALIFICATIONS:

- **C# and .NET Development:** Hands-on experience with C# and the .NET framework, including .NET Core.
- **Web Technologies:** Proficient in HTML, CSS, and JavaScript with knowledge of modern web development.
- **Desktop:** Experience designing, building, and maintaining desktop applications.
- **Microsoft Azure:** Familiarity with Azure services such as App Service, Storage, Azure SQL/Managed Database, and Functions.
- **Blazor/WebAssembly:** Experience or interest in Blazor and WebAssembly is a plus.
- **Database Expertise:** Strong skills in SQL Server, including writing complex queries, developing stored procedures, and performance tuning.
- **Problem Solving:** Excellent analytical and troubleshooting abilities.
- **Collaboration:** Strong teamwork and communication skills, with the ability to work effectively with technical and non-technical stakeholders.
